

WILD TIMBER INDUSTRIES LTD.

Rooted in the North. Operating since 2017.

CAPABILITY STATEMENT
FORESTRY AND RESOURCE SERVICES
BRITISH COLUMBIA AND ALBERTA

Wild Timber Industries is a Northern BC forestry contractor headquartered at KM 405 on Highway 37 in Iskut, operating in direct partnership with the Tahltan and Nisga'a Nations. We run falling, clearing, mitigation, and hauling programs in-house across BC and Alberta, so you deal with the operator instead of a chain of subcontractors. Tell us what you're building and we'll give you a straight answer and a realistic plan.

CAPABILITIES

FALLING

- Conventional timber falling, valley bottom to steep interior slopes
- Heli falling for terrain without practical or safe ground access
- Falling management and on-site supervision
- Danger tree assessment and hazard tree removal

CLEARING AND CORRIDORS

- Right of way clearing and vegetation management for utilities and transmission
- Hydro corridor clearing and maintenance
- Seismic line clearing for oil, gas, and exploration programs
- Forestry mulching

FIRE AND FOREST HEALTH

- Wildfire mitigation, fuel management, and fire guard construction
- Mountain pine beetle fall and burn

HARVEST, HAUL, AND SUPPORT

- Block logging
- Log hauling
- Mining and exploration support across the Golden Triangle and the Highway 37 corridor
- Project management for multi-line programs

WHERE WE WORK

Northern BC: Iskut and the Highway 37 corridor, Smithers, Burns Lake, Prince George, and the Golden Triangle.

Alberta: Grande Prairie, Fox Creek, Sundre, and the surrounding northwest. We work British Columbia and Alberta only. If a job sits outside that, we'll tell you rather than stretch to reach it.

INDIGENOUS PARTICIPATION

If your RFP carries Indigenous-participation or community-benefit requirements, contracting Wild Timber puts a Northern BC contractor with a direct Tahltan and Nisga'a partnership on your project, along with a workforce built through local hiring and training. Send us the requirement language with your scope and we'll tell you straight how our partnership, workforce, and training commitments fit it.

COMPANY FACTS

LEGAL NAME	Wild Timber Industries Ltd.
OPERATING SINCE	2017
HEAD OFFICE	KM 405 HWY 37 North Iskut, BC V0J 1K0
MAILING	PO Box 69 Iskut, BC V0J 1K0
SERVICE AREA	British Columbia and Alberta
PARTNERSHIP	Direct partnership with the Tahltan and Nisga'a Nations
HOURS	Monday to Saturday, 8 AM to 5 PM
QUOTES	Usually returned within two business days

SAFETY AND COMPLIANCE

Our crews go home safe, and the work holds up to inspection and to the next contractor on site. Certification, safety, and insurance documentation is provided with any bid package.

ASK FOR THE CURRENT PACKAGE

Send your scope and your prequalification requirements together and we will return the documentation your process needs alongside the quote.

HOW WE WORK

One team across every service line, and a direct line to the operator. No account managers and no hand-offs: the people who scope your project are the people who run it.

Send the block, the terrain, and what you need. We'll come back with a realistic plan and price, usually within two business days.
